Package ILCDIRAC

Version v1r15p0

CHANGE: move to DIRAC v5r12p7

NEW

Core

- Utility to obtain a prod proxy if needed, useful in prod submission scripts

Interfaces

- support for Tomato, check collections, lcio concat: currently in test phase

Workflow

- Support for overlay in LCSIM

CHANGE

Interfaces

- Modified scripts for sid jobs

Workflow

- Moved many parameters from many sub classes to mother class (ModuleBase): easier maintenance
