Package ILCDIRAC

Version v1r16p9

NEW

Core

- dirac-ilc-add-software and add-whizard now create a replication request for new tar balls.

Interfaces

- Module to print out the Workflow parameters only

Workflow

- For next major dirac release, ParametricInputSandbox will be possible with Marlin

CHANGE

Workflow

- Now when getting the overlay fioles, wait for 3 minutes on average (gauss distributed, sigma=0.1)
- Use common method between application modules (not for Mokka though) to report the final status
